Louisville Animal Shelter 10/16/2013

Building a new play area for dogs

Here will go the information about the organization about the project

We strive hard to give care and home to pets without a home. We believe that animals are beautiful and they must be treated with love and affection. Not all pets have an owner and get good food, for those unfortunate ones, we become a ray of hope.

We are a home for more than 200 animals, we have an open space which we think animals can use for playing. It is open, so a bit insecure, With this project, we can build a fencing around the ground so that the animals can play there safely.
